The Expert Engineers of big cities declare in favor of Bitulithic as a street paving material. Meanwhile, the Expert Engineers of Maysville stick to—Mud.

The Paris folk are boasting about a new Bitulithic street built in their city by a man who knows how to build streets. Why not the Maysville Dads take a look at that street and then employ the man to build some who knows how to build them?

BEFORE adjourning the National Grange, Patrons of Husbandry, in session at Atlantic City, N. J., adopted a resolution declaring—

"That we, as American citizens, believe it is every man's privilege to work as many hours as he wills for pay, and that energy, thrift and activity are entitled to encouragement and should command rightful compensation for services rendered."

This is taken as a direct aim at Labor Unions, which fix on eight hours for a working day, and may mean a contest between the farmers and organized labor.

THE Editor of Harper's Weekly has been digging among the antiquities, and says the historical facts concerning marriage as an institution are probably only vaguely known to the majority of people, most of whom would doubtless be surprised to learn that the institution, as we know it today, is less than 500 years old. Histories of the marriage ceremony show that it was not solemnized in Church as a religious rite until the time of Pope Innocent III., A. D. 1198, and was not considered a sacrament until 1442.

NEWPORTERS are crying for "better streets." Come up and get ours.

UNDER the present Protective Tariff Law the United States is enjoying the most prosperous era in all its history. Will some kind person please point to the time when there was anything approaching it under a Freetrade system?

THOMAS M. OCHILTREE of Rushville, Ind., was found dead in bed at Indianapolis, and his death is believed to be due from chargin caused by a fine for spitting on the floor of streetcar. So far, no Maysville man has followed his example.

THE President did right in removing Mr. LIEB, the Assistant United States Treasurer at Philadelphia. LIEB had persistently violated the Civil Service Law, although he had sworn, as every Federal officer swears, to support all the laws of the United States. "I know no method to secure the repeal of bad or obnoxious laws so effective as their stringent execution," said General GRANT in his Inaugural Address, March 4th, 1889.

THE Courier-Journal says the decision rendered by Judge O'DOHERTY in which he holds that the docking of horses is contrary to the statute prohibiting cruelty to animals and that a veterinary surgeon is thereby barred in a suit to recover a fee for the operation, will excite the attention of the humane who have long tried to prevent the practice, by positive statute, as well as of a certain class of showmen and fashionable horse fanciers, who insist upon such mutilation.

QUITE A DIFFERENCE.

Batts—As I understand it, the first principle of socialism is to divide with your brother man.

Ratts—No, no. It is to make your brother man divide with you.

A GOOD NIGHT'S REST

"Speak for It!" she cried to doggie, For she knew in her little heart, That German Syrup, home's great treasure, Could health and joy impart.

THE greatest tonic on earth is a good night's rest. Restless nights and the terrible exhaustion of a hacking cough are dread dangers of the poor consumptive. But why this fear of the night when a few doses of Dr. Boschee's German Syrup will insure refreshing sleep, entirely free from cough or night sweat? Free expectation in the morning is made certain by taking German Syrup.

WE know by the experience of over thirty-five years that one 75-cent bottle of German Syrup will speedily relieve or cure the worst coughs, colds, bronchial or lung troubles—and that, even in bad cases of consumption, one large bottle of German Syrup will work wonders.

Two sizes, 25c and 75c. All druggists.

The merchant who wishes to reach people who buy goods, puts his advertisement in a paper that people read; the merchant who throws his money away, gives his advertisement to the fakir who promises to put it on a card and hang it up on a street corner.

Not less than 5,000 people read THE LEDGER 312 days in the year. This makes a total of 1,560,000 readers in a year.

Spices THAT SPICE

Although adulterated spices should never be used for any purpose, there is no time when pure spices are needed more than during the hog-killing season.

You can be sure of Pure Spices of the best quality if you purchase them here, for in spice purchasing we trust nobody, but test everything in the spice line the same as we do our drugs. If you could see what a lot we have to reject you would appreciate being able to so easily procure the pure kind.

At the present time we can furnish you with some of the freshest and best Sage, Black Pepper, Cayenne Pepper, etc., that was ever raised, and they'll cost you no more than old, flavorless, adulterated kinds which are frequently sold.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.
